

Corporate Sponsorship Program

[The Ashland Climate Collaborative](#) is a 501c3 nonprofit organization founded in 2022 to serve as a hub for collaboration across Ashland to reduce our climate impact and build a more equitable and resilient community. We bring all facets of our community together to embrace climate solutions that make sense financially and enhance social equity, and position our community for a sustainable future.

In our first year, we've engaged dozens of volunteers working through Action Teams and Neighborhood Climate Action Networks on various initiatives to bring our community together. Areas of focus include cleaning up household energy use, reducing food waste, conserving water, and making our streets safer for people of all abilities to ride, walk, or roll throughout town for their day-to-day activities.

And we're just getting started.

Corporate Sponsorship offers a way for local businesses and organizations to support our work and be recognized as a champion of local climate solutions.

Benefits:

- We'll include your company logo in each ACC e-newsletter – published approximately quarterly (could come out more or less often)
- We'll include your company logo on the ACC website. Initially this will be on the "[Our Supporters](#)" web page.
- Your logo will include a link to your company home page
- Your company is eligible to participate in ACC's Businesses and Organizations climate action meetings. These are presently held on a quarterly basis.

Please note that sponsorship is non-exclusive.

We look forward to sitting down with you to hear about your climate goals and challenges. Please contact ACC President Lorrie Kaplan at lorrie@ashlandclimate.org to discuss how we can best work together to advance our shared goals.
