

Corporate Sponsorship

Thank you for serving our local community! Your business is essential to our shared future as a vibrant, thriving, and sustainable town. Thank you!

Every community must do its part to protect our world for future generations. High-impact climate solutions are more affordable than ever, offering the potential for cleaner air, quieter streets, more comfortable homes, and thriving communities.

But to reach this brighter future, we must rapidly mobilize to adopt these solutions and make them available to all, regardless of income.

That's where we come in! [The Ashland Climate Collaborative](#) is a 501(c)(3) nonprofit organization founded in 2022 to serve as a hub for Ashland residents, businesses, and local organizations to work together to reduce our climate impact and build a more equitable and resilient community.

Our current areas of focus include reducing household energy emissions, reducing food waste, conserving water, and making our streets safer for people of all abilities who wish to get around town by riding, walking, or rolling.

Your sponsorship offers a way to be recognized as a community partner that supports local climate solutions. It allows us to increase our capacity to achieve tangible results. Please note that sponsorship is non-exclusive.

Benefits:

- Your company logo in each Ashland Climate Collaborative newsletter – published twice a month
- Your company logo on [Our Supporters](#) web page with a link to your company home page
- Opportunities to work together on joint programming and partnerships aligned with our common interests
- Participation in networking and community events
- Recognition on our social media platforms (Facebook and Instagram)

We look forward to hearing about your climate goals and challenges. Please contact our Executive Director, Erin O'Kelley Muck, at erin.muck@ashlandclimate.org or call 541-944-4044 to discuss collaborating together.
